

Angela Armstrong

Free at Last

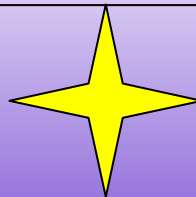

My name is Angela Armstrong I am 42 yrs old I have been married for 13 wonderful years and I have two beautiful children. My two children are in full time education so that means I have got spare time now to do things that I have not been able to do. Shopping is

my main priority, and I don't mean just for myself, just going to the supermarket is much better now as I don't have the children fighting or asking for everything they see. House work can be done without any fuss and the rooms are a lot tidier now for a while longer. Doing this ICT

course has been brilliant as I would not of been able to come to the Tansy Centre if my children had not been in school all day. So I would like to thank the person who invented schools, as they have made my life a lot easy.
